with Specially Crafted Environmentally Friendly Box Art**

New York (April 10, 2009) -- Oscilloscope Laboratories is pleased to announce the DVD release of WENDY AND LUCY on May 5, 2009. The film stars Academy Award®-nominated actress Michelle Williams whose beautifully crafted, critically-acclaimed performance garnered a 2009 Independent Spirit Award for Best Female Lead. Directed by Kelly Reichardt ("Old Joy"), the film is one of 2008's most celebrated films, listed on over 70 top 10 critic's lists including Entertainment Weekly, New York Times, AFI (American Film Institute), Newsweek, Film Comment, The Onion and the National Board of Review. WENDY AND LUCY also marks Oscilloscope's fifth entry in a series of collector DVDs using specially crafted, environmentally friendly packaging for its box art.

WENDY AND LUCY is a touching political road movie about an idealistic young drifter, her faithful dog and the wide-open spaces of the Pacific Northwest. Wendy (Williams) is a down-on-her-luck girl who's hoping to turn things around for herself with a summer job in Alaska. On route to her new life, Wendy's car breaks down in Oregon and the thin fabric of her financial situation comes apart. Gorgeously filmed in stark, luminous imagery, WENDY AND LUCY addresses issues of sympathy and generosity at the edges of American life, revealing the limits and depths of people's duty to each other in our modern times. The film also stars Will Patton ("Armageddon," "Gone in 60 Seconds," "Remember the Titans"), Larry Fessenden, alternative rock icon Will Oldham ("Old Joy," aka Bonnie 'Prince' Billy, Walter Dalton and John Robinson.

Oscilloscope Laboratories will release WENDY AND LUCY on DVD on May 5, 2009. The DVD will be available for \$29.99 SRP at all major retailers.

About Oscilloscope Laboratories

Oscilloscope Laboratories is a film production and theatrical distribution entity launched in 2008 by Adam Yauch of the Beastie Boys. Yauch modeled the company after the indie record labels that he grew up around, choosing films and then marketing them with the same artistic integrity with which they were made. The company, which is an extension of Yauch's recording studio of the same name, has an in-house DVD distribution and production arm, and the paper packaging is reminiscent of the heyday of LP record jackets. All of the company's DVD packaging is printed on FSC certified paper which is 100% recycled, 80% post consumer waste. Oscilloscope Laboratories recently released in theaters Yauch's GUNNIN' FOR THAT #1 SPOT, Irena Salina's FLOW, Caroline Suh's FRONTRUNNERS, Kurt Kuenne's DEAR ZACHARY and Kelly Reichardt's WENDY AND LUCY starring Michelle Williams. O-Scope will distribute So Yong Kim's TREELESS MOUNTAIN, Academy-Award nominated THE GARDEN from Scott Hamilton Kennedy, Anders Ostergaard's multi award-winning BURMA VJ and Nati Baratz's UNMISTAKEN CHILD in the upcoming months.
